THE RAILWAY CONFLICT.

The Union Pacific, Rock Island, and St. Paul Consummate That Agreement.

Latest Revelations Which Give the Scheme a Huge Stock-Jobbing Look.

The Result Known South to the Iowa Pool and Probably Diluse Preparations for War.

THE TRIPARTITE AGREEMENT.

Final Consummation of the Tripartite Agreement.

The announcement in yesterday's TRIBUNE that the Union Pacific and Rock Island had finally come to a conclusion regarding the tripartite agreement and signed it last Saturday, and that General Manager Atwill of the Rock Island and Mr. Ives, the Union Pacific agent, had left for New York that day, with the evident purpose of the latter becoming a party to the compact, was fully confirmed yesterday, when dispatches were received from New York announcing that all three roads had signed the agreement, and that it needs to agree into effect Dec. 1. The dispatches stated that the Managers of St. Paul signed the agreement on condition that all other roads would become parties to it before they formed to do so. This was strictly true, for what spoils, as the other roads must now act with what is known as to an agreement that was given up for the very purpose of dispelling them of the advantage they enjoy from having four lines of the Missouri River with the Rock Island and St. Paul. It is generally admitted that the agreement was gotten up for the special purpose of hitting the other roads, and especially the Burlington. That such is the case is shown by the fact that during the time a dispatch was received from President Cable, of the Rock Island, giving notice of the withdrawal of the road from the Council Bluffs passenger pool. If the Rock Island did not mean to enter the Burlington and other lines pool there no longer interest, it would have no reason to withdraw from the passenger pool which has united between the Burlington, Northwestern, and Rock Island for so long a time.

All further hope for a possible settlement of the lowa pool controversy have now been given up, particularly in getting such lines into line. Now preparations for battle are in order, and it will be no longer necessary for the Burlington to hold in the Chicago pool companies of the roads between the Missouri River and Chicago points. The Chicago, Rock Island & Pacific, the Chicago, Milwaukee & St. Paul, and the Chicago & Northwestern will all have lines to the Missouri River, and will be in a position to make a fight for the through business, which has been heretofore controlled by the Burlington. The Rock Island will be in a position to make a fight for the through business, with advantages not enjoyed by any other road, as it will have the Missouri River bridge at Council Bluffs, and will be able to make a through rate to Omaha and Kansas City, which will be lower than the rate of any other road, as it will have no bridge to cross. The Northwestern will be in a position to make a through rate to Omaha and Kansas City, which will be lower than the rate of any other road, except the Rock Island, as it will have no bridge to cross. The Chicago, Milwaukee & St. Paul will be in a position to make a through rate to Omaha and Kansas City, which will be lower than the rate of any other road, except the Rock Island and Northwestern, as it will have no bridge to cross. The Burlington will be in a position to make a through rate to Omaha and Kansas City, which will be lower than the rate of any other road, except the Rock Island, Northwestern, and Milwaukee & St. Paul, as it will have no bridge to cross. The Burlington will be in a position to make a through rate to Omaha and Kansas City, which will be lower than the rate of any other road, except the Rock Island, Northwestern,

VANDERBILT'S BALL.

A BRILLIANT GATHERING.

New York, Dec. 11.—[Special.]—The great private ball of the season that was given by Mr. and Mrs. William H. Vanderbilt to their son in honor and fifty-two guests took place last night. The ball was given in the palatial residence of the Vanderbilts, which is one of the finest in the city, and is situated on Fifth avenue, between Fifty-first and Fifty-second streets. The house is a large one, and is filled with all the modern conveniences and luxuries that wealth can procure. The ball-room is on the second floor, and is a large and handsome apartment. The walls are frescoed in white and gold, and the ceiling is decorated with paintings of cupids and flowers. The floor is of hard wood, and is highly polished. The ball-room is lighted by electricity, and the effect is very fine. The guests began to arrive at 10 o'clock, and by 11 o'clock the ball-room was filled with a brilliant throng. The ladies were dressed in the most elaborate manner, and the display of jewels was almost unprecedented. In the large square hall, connecting the whole right of the house, there were placed four large groups of trees of the choicest varieties, and at the foot of the stairs on the first floor, and in the corners of the ball-room, were large banks of flowers. The supper-room was on the first floor, and was a most elaborate affair. The table was set for 200 persons, and was loaded with the choicest delicacies that could be procured. The supper was served at 12 o'clock, and was followed by dancing, which was kept up until a late hour. The following is a list of the guests present:
